

CONFIDENTIAL: FOR THE 1% ONLY!!!

Authored by Robert Cornelius Sedona, Co-authored by campaign consultant Pepsi Sedona

As a local previously-owned automobile business titan and the next Governor of Arizona, me will be working closely with the state legislature and city leadership this session to achieve our priorities. I have already met in private with top stakeholders in the government, business and firearm communities. And soup to nuts we be on the same page, broncos!

“Schools, Strip Clubs and Stadiums”: Robert Sedona’s 2017 legislative agenda

Schools: they be outdated, a relic, o-v-e-r. Kids ain’t wanna go to ‘em, teachers ain’t wanna work for ‘em and Gosh dang it, our local political leaders ain’t wanna fund ‘em. Kids don’t make no money no how. Me would much rather give sweet, sweet corporate tax breaks to companies I’ve never heard of such as Lucid Motors, GT Advanced Technologies and the number of other swindlers who set up shop in AZ fer nuthin. Yeeeeeeeeee-haw! Now maybe me will spare a few **ESAs, JTEDs** and **charter schools** since they have friends in the political class who be makin’ money off ‘em...but **public school**: outta here! By 2020 minimum wage is \$12 an hour and kids won’t even need a dang education! When I was a young buck in 1925 I be makin’ 13 cents an hour and me was happy to have a job. These Millennials today ain’t know the meaning of hard work. If they’d look up from their pagers and Game Boys once in awhile they’d see that getting a job, not an “education,” is the key to keeping me and my fellow 1%ers in power for another 100 years. Educating the future means less money for us puppet masters! Yeeeeeeeeee-haw!

Strip Clubs: they create jobs. (disclosure: I own a small regional chain called “Boobs, Butts & Buffet”) What we need in Arizona is more job creation, not more taxes, not more government handouts. Strip clubs represent everything that makes America great (again): free enterprise, illusions of hanky panky, and liver-killing alcohol. Nine out of 10 of Rob Sedona’s girlfriends were or is strippers. (Don’t tell the wife! Thanks and God bless.)

Stadiums: sports be way more important than welfare and social services, roads and highways, education and public safety. Shucks the NFL were a tax-exempt non-profit until 2015 and Lord Roger Goodell, as its non-profit head, be makin’ more than \$44,000,000 per annum. Yeeeeeeeeee-haw! And ain’t even get me gears grindin’ on the cupcake relationships we be havin’ wid the Fiesta Bowl, Super Bowl, NCAA championship games, PGA Tour, anyone wid uniforms and millionaire athletes and sponsors, \$100 seats, \$10 beers. Sports lords ain’t have to pay much fer land, tax and stadiums; stadiums where the 99% can spend their rent money on a 2-hour show of millionaires kind of trying. Taxpayers be the worst kind of suckers: they be keep payin’ for wealthy sports owners’ office space. Does a Zack Greinke pitcher need \$34,000,000 per season? Of course he do! Let’s build the 2001 World Champion Diamondbacks a new home! And the Never World Champion Coyotes one, too! Without pro sports a city and state ain’t even real, hoss!

In 2018... we’ll plan on phasing out Medicaid and Medicare. We need to give Americans a choice of completely unaffordable medical care “options” that they’ll definitely need since we price bad food low and healthy food high. It’s a great system for us with lots of money. We’ll also continue to eliminate illegal votes, which are any votes that go against Arizpublican principles of no taxes, no help and no class.
