Covington Now Included... Seems like the only people not talking to the Judge G.  
Murray Snow was Sheriff Arpaio and his attorney's. This kind un ex-parte  
communications should have never been allowed.

Now that I have the bill, I will see what we can do.. Unfortunately, the only way we can get additional funds to you is as I ask before.. We need finished product so we can justify the expenditure.

Nothing is going to happen until the servers come back up and I have internet access. I told you that when I lost the service.

I can't risk delaying the surgery and losing my health insurance, I am sure the sheriff would understand that. This is open brain surgery, not coiling.

I will meet with surgeons on Friday, and set the appointment.

I sent you what I had on Rand Paul and the other information before I shut the system down. That is all I have right now.

Do not destroy any evidence!! Do not part with any drives!! Do not wipe them clean or sell anyone of them! That will destroy your credibility.

Destroying evidence will nullify your agreement with the AG!

If you can finish the work I asked you for, Brian and I will fly up there just to hand you the money.

You are the only one who can do it. This is the only way we can release money to you.

The BC should be easy for you to complete, you have most of it done. Just finish the BC and then get the Sheriff some more on the attorney's e mails and we will come up with cash in hand..

Regarding the harvested dates you must be careful. It could have been harvested in years earlier and updated when the latest harvest was done.

I have to have the servers up to do the work. I need to pay the \$415.47 to Comcast. I am going to sell equipment, including disk drives, it is obvious I have to do that, and I will, I am just not sure which drives I can sell. I hate to sell the wrong drives, and regret it for the rest of my life. Mr. Cabo didn't pay the prior month Comcast bill, and I have to deal with that. My internet is \$200 per month per line, two lines.

I don't care about the phone records, and I am not going to do work with them anymore. I just lost two drives before I shut the system down, and I am tired of struggling with billions and billions of phone records on so many drives that are fragile and old. I don't have the database to deal with that kind of data anyway. I am done with the phone records and will purge the data and sell the drives. So don't ask me about phone records going forward. I am done with them and the drives. WMA  
out

I will work on the other stuff when I get the system back up. It will take me two days to get the system back up and online.

I still have stitches in me so it makes it slow getting around.

I can, I just need you to finish something. We all get excited when you find new stuff.. unbelievable stuff... but now we something's finished.. You are the only one who can do that.. If you get us what we... need we can help you ...we want to help.. but we can't if we cannot justify it. We have to account for every cent. If you can finish the BC and do some more work on the E mail I can get you the Insurance money..

I just spoke to the Sheriff he wishes you well. He was upset to learn of your medical situation.

I will. There must be some way you guys can help keep me going. I am not asking for the moon and stars, just enough to survive until I can get back on my feet.

I am still in shock from Mr. Cabo demanding financial data on Xmas eve "Cabo Xmas Massacre". I had to turn him down, and he didn't take it too well. But I did the right thing.

If I have a chance to put this surgery off until next month, and I am not sure they will allow that, I must know my health insurance will be paid. It is \$2900 /month. If I can pay it, I at least will have that option available to me. Only cost me \$4,000 vs. \$250,000 for the surgery this month.

I know these are my issues, but I am looking for a job ASAP, that would have health coverage. That way my pre-existing condition is not an issue. But Monday hospital visit through me a curve.

If that wasn't enough Katie has two large kidney stones that she can't pass (too large) and is having surgery on Monday to remove them.

Kentucky residents harvested is over 240,000.

*How close the known water was Rand 12/12?*

Rand Paul was harvested at least 4 times from 2004 – 2012 I know of: Downtown Optical (Park Ave St), Clinic Optical (West Kentucky St.), Alchemy LLC (Wayside Way), election campaign, and his home.

Two companies Humana and YUM! Brands (Taco Bell, KFC, and Pizza Hut) have their cooperate headquarters in Louisville, KY. Both have been harvested heavily by the CIA over the last 10 years. YUM! Brand in particular has had over 15,700 of their employees harvested across the US. The .pdf file with just names on the page is over 80 pages.

*How close the known water was Rand 12/12?*

Humana has over 200 over their employees harvested also.

?

The only way this kind of data could ever had been created was by the US Government harvesting on a mass scale over so many years.

Texas is a different story and much larger harvested state. Exxon Mobil, Halliburton (which was not harvested until 2008), and many of the fortune 100 companies had millions of their employees harvested by the US Government without their knowledge all done by Brennan and Clapper covert programs.

No surprise, Bush never harvested Halliburton (2004-2008), but it was Obama that did the harvesting in 2009. Including all prior information they could obtain on Dick Cheney.

What changed is they were shocked to see the aneurysm, and the new changes in the aneurysm are very concerning to them. This next procedure could jeopardize the sight in my right eye. The aneurysm is at the junction of my right internal carotid internal artery and my right optical artery.

Like I said don't waste your time trying to get federal immunity. It may be of no value at this point. Have Sheriff save his chips for someone else.

I am working on getting disability. We will see how that goes. Should know in a few months.

Dennis your immunity deal is done... It is contingent on you producing what you said you have and us verifying the information. Remember that is way Glenn was coming out with us.

A few days ago you be mailed me and said that the only time the surgeons could be available was 1-22/23. Has that changed?

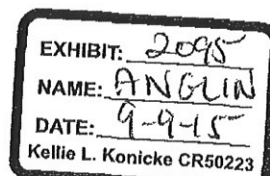

I keep trying to help you ... asking you to send me the internet bill, I am sure I can cover it even out of my own pocket, but you won't send it.

I can't help you if you don't let me.

Call the neurosurgeon or go the hospital the day of my surgery if you think I am playing a game. Which I am not! If you recall, I was supposed to have these tests done on December 1, and then December 16<sup>th</sup>, but I had to cancel it for my visit down there.

I see the neurologist tomorrow at 9:15 and the neurosurgeon at 9:30 on Friday.

My last hospital bill as \$250,000 for the surgery done in July. This bill will be even more.

The system is shut down right now. Like I said, this is a dangerous surgery, don't bother trying to get me immunity until I know I will survive this.

Most likely we will be dispatched out to your location to verify this unexpected development.
