**STATEMENT BY BEN SCHEEL,
CAMPAIGN MANAGER, DANIEL VALENZUELA FOR MAYOR CAMPAIGN**

“In his press release, and again during his press conference, attorney David Kephart cast doubts on his own charges. “... if these allegations are true” according to the release. “... if true” as stated during the press conference.

We can be more affirmative than Kephart and those behind this political smear of the highest proportions.

These charges are unequivocally FALSE, untrue, and a complete fabrication. We are exploring all legal options.

It is not coincidental this hit job comes out just as early voting ballots are arriving in mailboxes.

In a toxic political environment sweeping our nation, this is sad and a new low for our city.
